

PERFECT PRODUCT PLACEMENT OF CHOCOLATE HORIZONTAL

THE SITUATION

- poor visibility and orientation for the shopper
- brand message and differentiation between varieties on the front barely visible
- products do not stand independently

OUR SOLUTION

- POS-t doublestock tray:**
- can be stacked flexibly; for different sizes
 - 1 pre-made component, simple to install, lower part can also be used on its own
 - automatic front presentation
 - easy to refill and remove
 - high stability, no product damage

THE RESULT

- **+ 65 % sales** in 50 test stores
- rollout in **German and Spanish stores nationally**, also used in the duty-free sector
- always perfect visibility and accessibility
- better differentiation between varieties and improved shopper orientation
- reduced shelf maintenance
- **high satisfaction level** of store employees and shoppers
